

WEST COAST HELICOPTERS  
**Safety, Service, and Reliability**

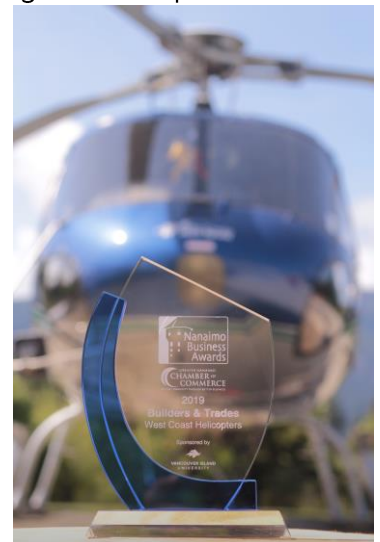

Congratulations West Coast Helicopters on winning the award for best in Builders and Trades in the 2019 Nanaimo Business Awards! West Coast Helicopters offers a versatile aerial approach to support remote construction jobs across Vancouver Island. Whether it be moving crews, slinging construction material or pouring concrete, West Coast Helicopters always finds a way to get the job done. Their maintenance staff has also provided reliable and professional service to many other helicopter outfits over the years.

“It was a great honour for all of us at West Coast Helicopters to receive this award. We have serviced the builders and trades community of greater Nanaimo for more than 20 years now and to be recognized in this way brings a great deal of pride to our team. Showcasing this award on our front desk and across our social media platforms has reinforced what our committed clientele has already come to know of our service.”

West Coast Helicopters has grown so much as a company and would love to extend their services into the tourism industry here in Nanaimo. They know of the growth and potential within the tourism sector and believe they “can offer a very exciting element to any tour package looking for a beautiful thrill!”
