

# COLD FRONT GELATO

Handmade • Local • Small Batch

Cold Front Gelato specializes in making innovative gelato flavours while respecting the Italian tradition of using local, fresh ingredients. They pride themselves in their “from scratch” methods that involve the production of their own purées, syrups, and sauces to produce the highest quality, natural gelato. Cold Front also proudly serves Milano Coffee and a premium selection of teas from a variety of incredible BC based tea companies.

The Cold Front journey began in Bologna, Italy. Studying the traditional methods of gelato production, the goal was to create a world class gelato right here on

Vancouver Island. The result is a mixture of traditional and innovative flavours, made fresh daily, drawing inspiration

from Italy and the West-Coast. One important tradition is their commitment to work with as many local producers and artisans as we can.

The greatest part of winning the Nanaimo Business Award for best New Business was “knowing that the people of Nanaimo nominated us and took the time to vote for our business.” They are so grateful to all of their customers for sticking with them in their first year as a starting business.

One of their newest initiatives at Cold Front is to include pastries to go with our gelato, coffee, and tea. Their second new offering is their delivery program. Customers can go online at [coldfrontgelato.com](http://coldfrontgelato.com) and order pints delivered right to their homes Monday - Friday!

Check out their website at [www.coldfrontgelato.com](http://www.coldfrontgelato.com), like them on Facebook at Cold Front Gelato, or follow them on Instagram at [@coldfrontgelato!](https://www.instagram.com/coldfrontgelato/)
