

### Minute Men Moving & Storage Facility Upgrade

You may have heard that Minute Men Moving & Storage is expanding their facilities. They are currently in the process of building a new warehouse, which is expected to be finished by April 2020.

In building the new warehouse Minute Men is helping create multiple jobs in Nanaimo throughout the entire planning and construction phase of the project. With the expanded facilities Minute Men will also have the chance to grow their own staff including their professional moving crews and their office staff.

Their new warehouse will be the newest and largest state of the art facility of its type on Vancouver Island, which is an exciting addition to Nanaimo. With Nanaimo being centrally located, it allows Minute Men's products and services to be offered throughout Vancouver Island, thus helping drive the Nanaimo economy.

With the building of the new warehouse comes some great enhancements to their business. In the past, they have stuck mostly with residential moving and storage, but with the growth they will be able to facilitate commercial storage and warehousing. Their use of container storage can be increased since the new facility is planned to be much larger than their current one. Minute Men Moving and Storage will also be a fully functioning Customs Bonded warehouse facility. This will be the only one in the mid island.

- GOV'T APPROVED WAREHOUSE STORAGE
- RESIDENTIAL & COMMERCIAL STORAGE
- CONTAINER STORAGE & MOVING

The building of a larger warehouse is not the only plan on the horizon for Minute Men Moving and Storage. Their goal is to continue the expansion of their current residential professional moving and storage services, and grow a moving, storage, and warehousing solution to the commercial sector.
